

65TH ANNUAL **2021 ICSB WORLD CONGRESS** HYBRID, HOSTED IN PARIS, FRANCE

L'Exposition Universelle d'Humane Entrepreneurship

Humanity and humane-centered work have never been of such importance. The coronavirus has exposed the way we have seamlessly and far too eagerly forgotten the human person's value on our hunt for progress and innovation. That is why at this moment, we must ask ourselves, "If our work and our society are not created for humanity, what is our goal?"

We must recognize how we have internalized unhealthy patterns that reach for financial capital before acknowledging the social costs. The ICSB 2021 Global Congress in Paris will demonstrate how the simple addition of humanity into our work as supporters and creators of MSMEs can behold the power to completely alter our motivations and outcomes. By engaging in human-centered work, we can alter our perceptions of our own capabilities as well as the capabilities of others, which then invites us into a place of greater progress, growth, and sustainable wealth development.

Helpful Insights.

Teaching Cases

Teaching cases stimulate the development of students' critical thinking skills in realistic business situations. This track is ideal for authors who are involved in case teaching, either by writing case studies or teaching a course based entirely on cases. All authors must indicate (on the first page of their submission) if they plan to present a 30- or 60-minute case.

Workshops

Workshops are defined as interactive sessions designed & implemented by the delegates who propose them. Workshops' main objective is to provide participants a learning experience that will impact their academic, professional and/or business development. Workshops can refer to some of the topics of interest of this Congress or they can propose new topics strongly linked to those of this Congress. Please be aware that workshop leaders may be requested to give their workshop on July 12th, 13th, 14th, or 15th, 2021 in Paris, France (or online if Congress is moved to a digital platform).

Doctoral Consortium

Doctoral students must be full-time doctoral students who are emerging small business and/or entrepreneurship scholars and are pursuing academic careers in entrepreneurship. The consortium will feature leading faculty in the discipline. It will focus upon both research and pedagogical issues relevant to the student who is preparing for a career of thought leadership, curricular development, and disciplinary advancement. Doctoral students are encouraged to specify research questions as well as the potential contributions they envision. They should also provide findings and conclusions (if available) to verify that the proposal is much more than just an idea for a paper that may be written in the future.

Please note that there will be a pre-congress event on Tuesday, July 13th for the doctoral consortium. The main research presentations will be held on Thursday and Friday, July 15th and 16th, 2021.

Experiences

Those who are actively involved in running innovative practices at the university or firm-level or those demonstrating exceptional practices in entrepreneurship and/or SMEs assistance & development have the opportunity to present & discuss their experiences in a roundtable setting. Authors are encouraged to describe the general context in which their expertise is embedded, the main target population, the objectives and activities, the main challenges, and the major results obtained. Importantly, they should also provide some key lessons derived from these interventions. The Experiences will be presented on July 15th and 16th, 2021.
